Food shop

If you would like to avoid the super-market altogether, but still be fully stocked up for your holiday, we also offer a full shopping service.

Please give us a detailed list of items you require at least a week before your arrival and it will be delivered to your property prior to your arrival. We require specific details on this list, like a quantity, brand or other details relating to the item.

For example:

- Cheese - This is too vague!
- 1 x bag of grated Parmesan approx. 50g - This is better :)

We will strive to match the items on the list, but we will notify you if we cannot get an item. Remember that the shops here are slightly limited as we are in resort.

We don't have a maximum list of items, but please don't order more than a trolley load and/or too many heavy items.

Please note, we are unable to procure alcohol as part of our food shopping service.
